Elevate Your Weighing Solutions with Advanced Programmable Technology

Loaded with Standard Apps Right Out of the Box

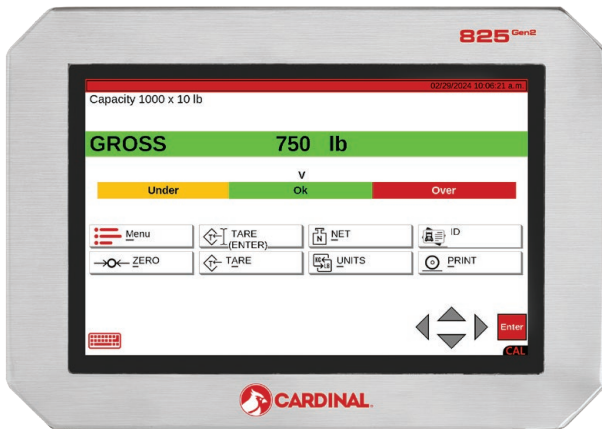

TRUCK ID STORAGE

Touchscreen truck ID storage menu allows adding and editing trucks, customers, and products on the fly using the dynamic onscreen keypad that's available when needed.

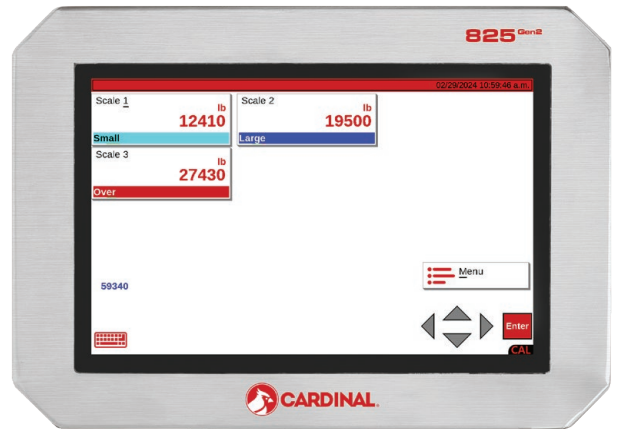

DIGITAL FILL CONTROL / BATCHING

Visual hopper graphic dynamically illustrates the level of fill, showing recipes with up to 5 ingredients onscreen at a time during batching operations.

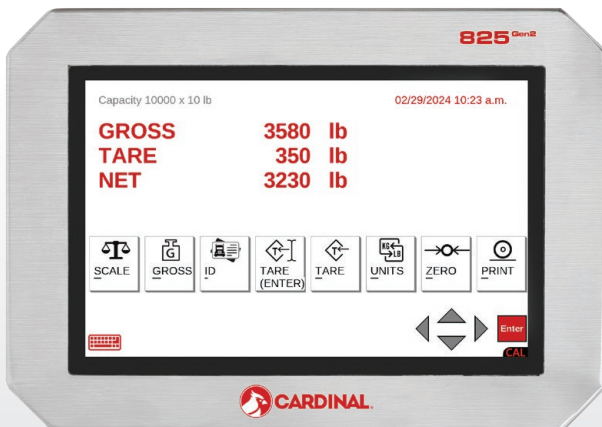

CHECKWEIGHER MODE

Large, bright full-screen checkweigher bar changes color as weight progresses into different target weight ranges (Under, Accept, Over).

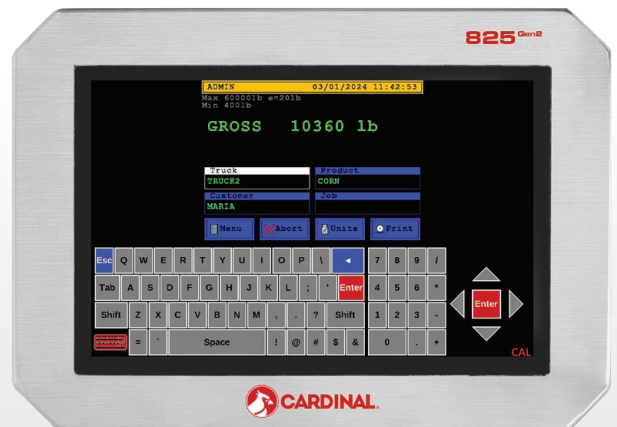

MULTI-SCALE APPLICATIONS

The 825 displays multiple scales onscreen simultaneously, including checkweighing status, whether it's connected to a multi-platform truck scale or a tank farm.

STANDARD SCALE OPERATIONS

Standard scale weighing mode displays large easy-to-use touchscreen buttons for functions such as Gross, Tare, and Print.

LEGACY MODE

Existing 825 custom apps can be recompiled to run on the new 825 in legacy mode. Please contact Cardinal Scale Custom Software Dept. for details.

Seamless Integration: Programmable Weight Indicators with Multiple Protocol Support

Touchscreen Ease of Operations Combined with High-Performance Hardware

- Large 12" LCD full-color, touchscreen (1280 x 800 pixel resolution)
- Display is fully visible in direct sunlight
- HDMI port allows connectivity with large-screen monitors
- Full-color, interactive application menus with easy-to-use navigation
- Standard apps right out of the box: Truck ID Storage, Digital Fill Control / Batching, Checkweigher, Highway Weigh Station, and Multi-Scale
- File manager provides onboard access to saved files
- High-speed processor for main board and operator interface board
- Audio notifications
- Ethernet, Wi-Fi, Bluetooth, and high-speed USB 3.0
- 3 serial ports
- Onboard digital I/O: 4 inputs and 4 outputs
- Security: SSL, SSH
- 4GB memory standard and 16GB onboard memory storage with up to 256GB memory storage available
- 8 option card slots (7 are available with included installed 825-SIB)
- Multi-point calibration
- Up to 8 operators (one administrator and 7 configurable users)

LARGE-SCREEN MONITOR CONNECTIVITY
The screenless 825 models may be connected via HDMI (multi-directional interaction) or USB (readout only) with large-size monitors for big-screen visibility.

INTERNAL ACCESS WITHIN SECONDS
Desktop Version:
Two thumb screws on the desktop chassis provide quick internal access.
Stainless Steel Version:
Quick release clamps allow fast access to internal components.

BUILT-IN WEB SERVER
The 825 features Web browser access that gives you the ability to manage files, view weight, run the indicator remotely (using Windows "Remote Desktop"), and view diagnostics on your indicator anywhere in the world.
The file manager allows you to retrieve and transfer image files stored on the 825, which is especially helpful with connected license plate cameras capturing in and out weighments.

LOADED WITH CONNECTIVITY
Ethernet, Wi-Fi, Bluetooth, high-speed USB, 3 serial ports, and 4 digital inputs/outputs.

IP CAMERAS

The 825's Camera Configuration allows you to configure up to 4 IP cameras and capture images based on the type of weighing: first pass, second pass, or single pass.

POWER BUTTON

Since the 825 has a completely touchscreen display, a push button power switch is located above the AC power cord for convenience.

ADJUSTABLE KNOBS

Versatile adjustable angle tilt knobs on the stainless steel model mounting bracket allows you to position the display where it's easiest to read.

PLENTY OF ROOM TO EXPAND

Eight option card slots (seven are available with included installed 825-SIB).
