Pediatricians' Offices • Clinics • Hospitals

DETECTO's mechanical infant stadiometer is a durable length measuring device which ensures years of trouble-free operation. The model MLM's portable slider features soft ergonomic edges to protect young patients from unnecessary injury and maximize patient comfort while measuring.

model **MLM** INFANT STADIOMETER

Lightweight and Easy to Use

Model	MLM
Measuring Range	2.5 - 39 inches / 65 - 1,000 mm
Graduation	0.125 inch / 1 mm
Accuracy	± 0.125 inch / ± 1 mm
UPC Code	809161188301
Shipping Weight	2 lb / .9 kg

The instrument's smart design

allows the measurement to be retained after usage freeing the medical professional to attend to the patient first before recording the measurement. The light cream color is neutral to compliment all medical settings and the high-contrast measurements are easy to read.

Easy pushbutton extension of the measurement caliper

The calipers of the portable infant stadiometer conveniently fold in for easy transport or storage.
