

Concrete Deck Low-Profile Side Rail Truck Scales

- *Legal-for-Trade Certified up to 14 Ft.*
- *Side Rail Guidance for Driver, Truck, and Load Safety*
- *Four Different Load Cell Types Available to Choose From*

ADVANCED WEIGHBRIDGE DESIGN

WITH **MULTIPLE
LOAD CELL
TYPES
AVAILABLE**

Cardinal Scale's Olympus truck scales are engineered and manufactured for ease of shipment to job sites around the world with bolt-together installation that will provide years of reliable, accurate truckload weighing.

Cardinal Scale's Olympus truck scales bolt together for the field pouring of concrete. The 18-inch/455-mm-high I-beam, hip-style construction features a 8-inch/200-mm concrete deck (concrete not included).

The Olympus comes in choices of 6 different load cells for varying capacities with analog, digital, and hydraulic load cell offerings from Cardinal Scale. These 28-inch/70-cm-high, low-profile side rail scales are designed to minimize costs associated with delivery to job sites.

- Available with Your Choice of Analog, Digital or Hydraulic Load Cells
- Overall Scale Capacities Available Ranging from 60 Tons up to 100 Tons

- Heavyweight 30-Ton Concentrated Load Capacity (CLC)
- NTEP and OIML Certified
- Built-in I-beam Guide Rails
- 152 Different Models Available (See page 4)

- Pour-in-Place Concrete Deck Weighbridges
- Long-Lasting Baked-On Tan Powder Coat Paint

HIGH-CAPACITY VEHICLE WEIGHING

Concrete Deck Low-Profile Side Rail Truck Scales

Olympus truck scales stand up to heavy truck loads with their wide-flange I-beams utilized throughout the weighbridge that add rigidity to each side of the truck scale and serve as guide rails for safe truck loading.

All Cardinal truck scales go through an extensive 3-stage washing system at the factory, which washes the scale completely to remove all mill scale and surface imperfections. The weighbridges are then powder-coated with zinc-enriched anti-corrosion paint and baked in an industrial oven at 450° F degrees for two hours. This baked-on powder paint provides a weatherproof UV-protected finish due to the maximum coating adhesion preparation.

- NTEP and OIML Certified Widths up to 14 Ft
- Easy Access to Load Cells
- Standard 8-inch/200-mm Thick Concrete Deck

FOUR LOAD CELL TYPES AVAILABLE

AC Series Load Cells

- Analog Compression Load Cells
- Anti-Rotation Mounting
- IP69K Waterproof Rating
- Stainless Steel Load Cells
- Stainless Steel Junction Box

DC Series Load Cells

- SmartCell® Digital Compression Load Cells
- Anti-Rotation Mounting
- IP69K Waterproof Rating
- Stainless Steel Load Cells
- No Junction Box Necessary
- iSite Cloud-Based Remote Monitoring

SCBD Series Load Cells

- SmartCell® Digital Double-Ended Shear Beam Load Cells
- axis® Frictionless Centering System Load Cell Stands
- IP69K Waterproof Rating
- Stainless Steel Load Cells
- No Junction Box Necessary
- iSite Cloud-Based Remote Monitoring

SST Series Load Cells

- Guardian® Hydraulic Compression Load Cells
- Lifetime Hydraulic Load Cell Warranty
- SST Load Cells are Immune to Water Damage, Electrical Surges and Lightning Strikes
- IP68 Waterproof Rating
- Stainless Steel Load Cells
- Severe-Duty Rated Load Cell Protection

Concrete Deck Olympus Truck Scale Models

The models listed below include the foundation kit, standard rodent protection, checking, and bolt-down anchors. Anti-corrosion industrial tan powder coat paint is standard on the weighbridges. Rebar and deck sheeting is not included.
