Internal Heater with Thermostat for Temperature Extremes

Internal access to the high-speed thermal cutbar tape printer is easy with the WINENCL-P's lockable rear door. The internal quick release mechanism allows you to easily load fresh paper rolls. The innovative looping printer mechanism prevents paper jams by printing the receipt in full before providing it to the user. The large-diameter paper roll provides many hours of unattended operation. The internal thermostat allows Cardinal's WINENCL-P to be used in all weather conditions.

Connect the WINENCL-P printer to Cardinal Scale's 200 series indicators or 825 Spectrum indicator via RS232 serial (other connectivity options are available upon request: USB, Ethernet, Parallel).

The mount on the bottom of Cardinal Scale's WINENCL-P is a 6-in/15-cm nominal Schedule 80 pipe that accommodates up to a 4-in/10-cm nominal pipe for a post. Cardinal Scale recommends using a 4-in/10-cm nominal pipe or 4.5-in/11-cm OD to 5.5-in/14-cm OD tubing as a minimum size for a post.
