

# WEIGHT WRANGLER

★ MOBILE AND PORTABLE ★  
LIVESTOCK SCALES

## Trailer Flooring

- X-Lug cleated rubber trailer flooring
- 2-in x 8-in with 1-in-high cleats providing excellent traction for sure livestock footing
- This rubber, cleated flooring will outlast the rest!
- The trailer scale flooring is designed to have open gaps between the boards for easy wash outs

## Trailer Suspension

- 15-in trailer tire with load range "D"
- Semi-trailer type air spring is very durable (This double convoluted air bag is typically found on lift springs or axles for semi-truck and trailers)
- 8,000-lb trailer jack
- 2-in bulldog coupler

## Trailer Lower Frame

- The lower frame will accept 2-in OD rough stock panels into receiver tubes, in order to help guide cattle onto the livestock scale

## Additional Information

- Automotive-style latches on mobile weigh center and battery box
- 7-wire RV plug – mount-in trailer frame for easy connection and storing

## Packaged System

- Price includes self-contained weighing system with mobile weigh center and battery box with air compressor
- Scale arrives totally assembled upon delivery
